

Unalaska Marine Center (UMC) Dock Expansion

Comment Sheet

The City of Unalaska is working on expanding the Unalaska Marine Center (UMC) Dock Positions III and IV with an OPEN CELL SHEET PILE® bulkhead dock (between the existing UMC dock and the U.S. Coast Guard Dock). In addition to the dock structure itself, the City desires input from the public and potential users groups regarding other items this project may include such as: gauge crane rails (50-foot or 100-foot gauge), addition of utilities, a new cargo handling facility, loading docks, dock surfacing, storage facilities, cold storage, and new office building with parking. We're looking for your feedback on these proposed planning efforts. We encourage you to contact us today.

Please provide your comments on this sheet or send a separate letter, e-mail, or fax. We are requesting your comments by May 29, 2015. Thank you!
