Re: Resolution No. 2018-44: A Resolution of the Unalaska City Council renewing the City's policy on participation in funding electric primary and secondary utility line extensions for Fiscal Year 2019

Resolution No. 2018-45: A Resolution of the Unalaska City Council renewing the City's policy on participation in funding water and sewer utility extension costs for primary and secondary line extension for Fiscal Year 2019

SUMMARY: Resolutions 2018-44 and 2018-45 authorize continuation of the City's policy of financial participation in Utility service extensions. The resolutions define the City's policy on participation in the cost of the extension of primary Electric, Water and Sewer services for Industrial ratepayers, and for the extension of primary and secondary Electric, Water and Sewer lines for Residential ratepayers. In FY 2018, the City reimbursed four residential customers for utility line installations for a total amount of \$5,917.22.

PREVIOUS COUNCIL ACTION: Council first enacted the policy of financial participation in Water and Wastewater primary lines in FY1991.

In FY2000, Council expanded the policy to include Residential, Small General, Large General, and Industrial Electric primary line extensions.

Each year since their inception, Council has approved resolutions allowing the City to participate financially in Utility line extension.

BACKGROUND: The City recognized that the extensions of primary line utilities are very expensive for property owners in Unalaska. These programs were designed to help defray these costs.

DISCUSSION: These resolutions are brought forward for Council's consideration each Fiscal Year to identify the City's policy on financial participation in Water, Sewer and Electric utility extension costs. These resolutions, if approved, will expire June 30, 2019.

Through these resolutions, Council is approving financial participation in the funding of Electric, Water and Wastewater utilities extension costs for primary lines for Industrial, Large General, and Small General ratepayers, and primary and secondary electrical service line extensions, for Residential ratepayers, and for Water and Wastewater primary and secondary services.

ALTERNATIVES: Council could choose to not renew either or both of the policies, and allow them to expire on June 30, 2018.

FINANCIAL IMPLICATIONS: In Fiscal Year 2018, the City reimbursed customers for four Residential extensions and one Small General customer for the cost of installing utilities. The total cost of FY2018 reimbursements for utility installation is \$5,917.22, as Table 1 below depicts.
