NEWS RELEASE

Friday, October 9, 2020, 3:45pm, News Release no. 140

Coronavirus COVID-19

LOCAL RISK FACTOR: Medium

UNALASKA COVID-19 CASE COUNT:

COVID-19 tests performed locally	2,654
Cumulative positive persons tested locally	104*
Current active cases	1

**The number of cumulative positive persons tested locally includes the 85 persons from the fishing vessel American Triumph and the 1 person employed on the State Ferry Tustumena, who all left the island shortly after testing.*

NEW POSITIVE TEST, UNISEA EMPLOYEE: A new positive test for COVID-19 is reported today. The individual is an employee of UniSea and has been in quarantine since arriving in Unalaska via commercial flight on Wednesday, October 7, 2020. The individual is being followed by staff at the IFHS Clinic and contact tracing is underway. If you were on a commercial flight on that date, you are encouraged to monitor for symptoms and consider being tested 5-7 days after the potential exposure.

STATE OF ALASKA CASE COUNT: Source <https://coronavirus-response-alaska-dhss.hub.arcgis.com/>

STATEWIDE STATISTICS	Resident	Non-Resident	Total
Cumulative Cases	9,182	994	10,176
Recovered Cases	5,110	624	5,734
Active Cases	4,012	370	4,382
Cumulative Hospitalizations	317	7	324
Deaths Statewide	60	0	60
State's Case Count for Unalaska	4	90	94*

**The total reported by State DHSS for Unalaska doesn't match the cumulative positive persons tested locally because some of those individuals may have previously tested positive before arriving in Unalaska, so were not counted as an additional positive person by the State; or because of other intricacies in how the State tracks cases.*

DO THE 3 Ws

Wear a mask

Watch your distance

Wash your hands

AVOID THE 3 Cs

Crowded settings

Close contact with others

Confined spaces

#####
