## NEWS RELEASE

Friday, October 30, 2020, 12:30pm, News Release no. 149

### **Coronavirus COVID-19**

**LOCAL RISK FACTOR: Medium**

**CASES OF COVID-19 CONTINUE TO INCREASE STATEWIDE:** Cases of COVID-19 continue to increase across the state, with the highest numbers in Anchorage. Everyone in Unalaska / Dutch Harbor is strongly encouraged to continue protective measures and comply with the local 14-day travel quarantine in order to protect our community from an outbreak of COVID-19.

According to DHSS, most new infections among Alaskans are from community spread. Most Alaskans get the virus from someone they work, socialize, or go to school with. In many instances, contact tracers have not been able to identify where the person got the virus. This means that there are undiagnosed cases of COVID-19. Most Alaskans diagnosed with COVID-19 report that they went to social gatherings, community events, church services and other social venues while they were contagious but before they knew they had the virus. If Alaska follows the national trend, viral transmission increases first in younger age groups, followed by increases in older age groups, after which an increase in hospitalizations and deaths is typically seen. Let's avoid that in Unalaska!

### **DO THE 3 Ws**

**Wear a mask**

**Watch your distance**

**Wash your hands**

### **AVOID THE 3 Cs**

**Crowded settings**

**Close contact with others**

**Confined spaces**

**UNALASKA COVID-19 CASE COUNT:** No new cases to report today.
