Federal Water Groundfish Harvest 5-6-2023, State Water Pot Cod 58' < Under Fishery State Water Sablefish and IFQ Halibut and Sablefish, for 5-16-23.

We continue in the slow period for fishing activity in the Bering Sea until the Pollock B season opens on June 10th. We should start seeing activity will processors and harvesters start to arrive during the last week of May. The B season allocation which is 60% of the overall Pollock allocation of 1.3 million Metric tons. The B season allocation comes in at 780,000MT in pounds (1.7 billion pounds) Unalaska shoreside allocation is 248,000MT in pounds (547 million) for the four local plants. There is still 19,277MT (41 million pounds) of A season Pollock allocation left the majority of that is in the shore side catcher vessel sector. I expect some of the A season left over quota to be harvested in late May. The A season does not close until June 10th at noon, this extra time will allow shoreside catcher vessels to scout around for good areas to fish for the B season starts on June 10th. We will still see in the next few weeks some Halibut and Sablefish landings coming to the shore-plants and crew changes and offloads by the Pacific Cod freezer longline catcher processors, and the Amendment 80 Bottom trawl catcher processors as well during this slow period.

The Pollock A season opened on January 20th. Pollock A season opened on January 20th. Last week we had no harvest. The total A season harvest is at 549,327MT (1.21 billion pounds) leaving 19,277MT (42.4 million pounds) to harvest 97.1% of the A season allocation has been harvested. The onshore

sector has the largest share of the A season harvest to date 239,040MT. (526 million pounds).

Pacific Cod: The fishery pot gear fixed gear fisheries are wrapped up. Pacific Cod fishery pot gear fixed gear fisheries are wrapped up. The trawl harvest and freezer longline CPs have also slowed down. Last week's harvest was 1,615MT (3.2 million pounds) including CDQ harvest. The A season harvest is at 81,031MT (165 million pounds) leaving 59,630MT to harvest (121million pounds). including CDQ 60% of the Pacific Cod seasonal allocation of 135,354MT has been harvested.

Bottom Trawl Fishery: The Amendment 80 sector fishing sector is seeing better fishing and weather that is increasing their catch. The harvest last week was 9,555MT (19.4 million pounds) a 5,000MT increase over last week's harvest due to the increase Yellowfin Sole harvest. The total harvest stands 120,731MT (244 million pounds) of various species including the CDQ harvest.

Halibut IFQ: This Fishery opened on March 10th landings reported as of this morning, 721 landings for 3.2 million pounds. and leaving fifteen million pounds to harvest 17.5% of the fishery is complete. Fishing has been slow, and the harvesters have had harsh weather. The CDQ harvest is still confidential currently. The IFQ allocation is 17.2 million pounds. The CDQ allocation for the 6 CDQ groups is 1.18 million pounds of Halibut for a total of 18.2 million pounds. The leading port for Halibut landings is Juneau with 549,792bs. and Homer 503,899lbs. Halibut ex-vessel prices for Halibut are in the \$6.00 to \$6.50 range depending on size.

Sablefish IFQ: This Fishery opened on March 10th landings reported as of this morning show 671 landings for 14.5 million lbs. leaving 47.48 million pounds to harvest 23% of the allocation has been harvested. The Sablefish allocation for Alaska is 62.04 million pounds. The leading Port for Sablefish landings is Seward 2.4million lbs. and Kodiak at 1.5 million lbs. Sablefish prices range depending on size \$1.50-\$7.00 for large fish, we understand the fleet is harvesting many 1-2- and 2-3-pound fish which is driving down ex-vessel value.

ADFG Aleutian Island State Water Sablefish: as of this morning seventy-one landings for 992,580 lbs. leaving 914,420lbs. to harvest, 52% of the

Misc. Items:

SB 128 Senator Olson bill on closing area M was heard and held no testimony was heard at the Senate Judiciary Committee on Friday May 12, 2023. The bill was amended to exclude the North Peninsula and NW Peninsula areas from the bill since those areas catch insignificant amounts of Chum salmon. We do not believe it will make it to the Senate floor for action this year, there is just not enough time.
