**From:** Frank Kelty, Fisheries Consultant

**Subject:** Bering Sea Aleutian Island Crab Harvest.

NOAA has stopped updating the Groundfish harvest reports until the second week of January due to lack of activity. They will continue updating the BSAI Crab Fisheries which I have updated below.

### **BSAI Crab, 12-27-21**

#### **State Water Golden King Crab Fisheries 12-20-2021**

Aleutian Island Golden King Crab fishery, opened on August 1, 2021. The Eastern District is at 50 landings for 3.45 million pounds with 95% of the allocation harvested, there were three landings made in the Eastern District made last week. The Western District is at 17 landing an estimated 1.2 million pounds harvested 50% of the allocation has been harvested. The total landings are at 67 for 5.01 million pounds the Golden King Crab allocation is 5.9 million pounds leaving 900,000 pounds to harvest. There were no landings of Golden King Crab last week.

#### **Bairdi Tanner Crab Western District 12-20-21**

There were no landings last week from the Western District in the Pribilof Islands. For the season have ten small landing for 135,656lbs harvested, leaving 854,344lbs to harvest 14% of the allocation has been harvested. We had no landing made last week, the allocation for this area is set at 990,000lbs. down from 2.3 million pounds in 2021.
