Re: Ordinance 2020-11 amending the fee schedule specifying the fees and charges for services, labor and equipment provided by the City

Your packet this evening contains the final version of the proposed FY21 Fee Schedule, incorporating all changes suggested by staff as well as the amendment adopted by Council on June 9 changing some fees charged at the wastewater lab.

Only one other item was changed following the June 9 meeting. A typographical error was noted in the Ports and Harbors section, page 20, Section M Wharfage. The Minimum Wharfage at UMC and LCD should be \$225.26 rather than \$252.42. This error has been corrected.

A separate memo is included responding to Council's question regarding vehicle disposal fees.

STAFF RECOMMENDATION: Staff recommends adoption of Ordinance 2020-11.

PROPOSED MOTION: I move to adopt Ordinance 2020-11.

CITY MANAGER COMMENTS: I support Staff's recommendation.

Re: Informational Memo explaining the background of the Vehicle Registration Tax and the Solid Waste Vehicle Disposal Fees

SUMMARY: At the June 9, 2020, Council Meeting, Councilor Coleman requested the City Manager have Staff explain why a resident, who has already paid the Vehicle Registration Tax, also must pay the Landfill disposal tonnage fee for junk vehicles over 1 ton. This Memo is Staff's attempt to answer Councilor Colman's question and give a complete background on the Vehicle Tax Ordinance, UCO 14.04.021, and the Solid Waste Fee Schedule language concerning vehicle disposal fees.

PREVIOUS COUNCIL ACTION: At the February 24, and March 31, 2009 Council meetings, Director Winters presented the Solid Waste Rate Increase Options and Vehicle Registration Tax Option to the Council.

During the March 31, 2009 Council Meeting, Council directed Staff to return with an ordinance to adopt the Vehicle Registration tax.

At the May 26, 2009 Council meeting, Council approved Ordinance 2009-06 the Vehicle Registration Tax and created Unalaska Code of Ordinance 14.04.021.

At the April 27, 2010 Council Meeting, council approved Ordinance 2010-02, which amended UCO 14.04.021, Vehicle Registration Tax.

At the June 9, 2020, Council Meeting, Councilor Coleman requested the City Manager have Staff explain why a resident, who has already paid the vehicle registration tax, also must pay the Landfill disposal tonnage fee for junk vehicles over 1 ton.

BACKGROUND: Council implemented the vehicle tax increase to recover the monetary loss to the Landfill Proprietary Fund associated with shipping abandoned vehicles off island. Council adopted the Vehicle tax Ordinance 2009-06 on May 26, 2009. The Ordinance read as follows:

§ 14.04.021 Increase of motor vehicle registration tax.

A. There is levied a biennial motor vehicle registration tax of one hundred (\$100) dollars per vehicle in addition to the biennial motor vehicle registration tax levied pursuant to AS 28.10.431, Vehicle classes 11 and 45, as such statute may be hereafter amended, revised, or replaced.

B. The following motor vehicles are exempt only from the additional tax levied under this section: motorcycles, trailers, and commercial vehicles weighing more than 12,000 pounds.

The intent of Ordinance 2009-06, Vehicle Registration Tax, is to collect revenue from all owners of vehicles under 12,000 pounds, exempting motorcycles, trailers, and commercial vehicles, to cover the cost of removing them from the Landfill and shipping them off-Island for disposal.

In February 2010, the Alaska Department of Motor Vehicles (ADMV) contacted staff and informed us that the way Amendment to Ordinance 14.04 was written would not accomplish the City of Unalaska's intent. ADMV has over 100 classifications for vehicles. By the ordinance stating Vehicle Classes 11 and 45 in the ordinance, only those classes would be taxed. Over sixty other classifications for passenger vehicles, pickups, and vans would not be taxed. ADMV recommended that we exclude vehicle classes in the Ordinance.

The Ordinance also stated that commercial vehicles weighing more than 12,000 pounds would be exempt from paying the tax. ADMV informed us that commercial vehicle weights start at 5,001 pounds and recommended that we lower the exemption from more than 12,000 pounds to commercial vehicles weighing more than 5,000 pounds. Any commercial vehicle delivered to the Landfill for disposal weighing more than 5,000 pounds will be charged the per ton weight stated in the rate schedule.

The City Attorney rewrote the ordinance following ADMV's recommendations. The rewritten Ordinance was sent to ADMV for review and was sent back with their approval. The new Ordinance read as follows:

§ 14.04.021 INCREASE OF MOTOR VEHICLE REGISTRATION TAX.

There is levied a biennial motor vehicle registration tax of \$100 per vehicle subject to the tax in addition to the biennial motor vehicle registration tax levied pursuant to AS 28.10.431, as such statute may be hereafter amended, revised, or replaced.

The following motor vehicles are exempt only from the additional tax levied under this section: motorcycles; trailers; and, commercial vehicles weighing more than 5,000 pounds.

Council's discussion with Staff consisted of the reasoning behind charging a tonnage fee at the Landfill for commercial vehicles weighing over 5,000 lbs. and not non-commercial vehicles that weighed over 5,000 lbs.

The average sedan passenger vehicle and pickup trucks, up to a 1-ton rating, weigh between 3,000 and 5,000 lbs. The next class of truck above the 1-ton truck is the 2500 class of truck that can weigh up to 10,000 lbs. These higher classes of trucks would cost twice as much to ship off Island since the disposal contract is set up to be paid by the ton. This would also include vehicles such as school busses and motor homes.

Due to this reasoning, Council decided to charge a tonnage fee for non-commercial vehicles above the 1-ton rating. Council approved the amendment of UCO 14.04.021 through Ordinance 20010-02 on April 27, 2010.

The result is the table below, included in the Solid Waste Fee Schedule, for vehicle disposal.

Passenger cars	No Charge
Pick-up trucks & SUV's up to 1 Ton Rating	No Charge
All commercial vehicles	\$918.95/ton

DISCUSSION: As stated above in the background narrative, the Fee Schedule language for the disposal of vehicles was the result of discussions between Staff and Council during the implementation of the Vehicle Tax Ordinance. The goal was to capture all of the costs associated with the disposal of vehicles at the Landfill, including the cost of disposing of abandoned vehicles. Junk vehicles and metal disposal historical costs are approximately \$450 per ton to load and ship off island.

The structure of the fee schedule for vehicle disposal is as follows. The average passenger cars weighs approximately 3,000 lbs. and is the majority of resident owned vehicles in Unalaska. These classes of vehicle pay the increased vehicle tax and are not charged at the Landfill.

Pickup trucks and SUV's up to 1-ton rating weigh approximately 5,000 lbs. and pay the increased vehicle tax and are not charged for disposal at the Landfill.

Vehicles over the 1-ton rating can weigh as much as 10,000 lbs. and cost up to twice as much to ship off island. These vehicles do pay to be disposed of at the Landfill per the Fee Schedule.

Most commercial vehicles are not brought to the Landfill but shipped off island by the owner to be disposed of. To maintain the momentum of this practice, Staff and Council decided to charge a tonnage fee when commercial vehicles are brought to the Landfill.

Vehicle taxes are collected through the Alaska Department of Motor Vehicles (ADMV) registration renewal process. ADMV has over 100 classifications for vehicles. The language used in UCO 14.04.021 was agreed upon by the City of Unalaska and ADMV to relieve the City of the burdensome task of naming each vehicle class in the ordinance. Changing UCO 14.04.021 would be a long and tedious process and the final product would not accomplish the needs of the City.

ALTERNATIVES: Council could choose to revisit this issue now or in the future.

FINANCIAL IMPLICATIONS: Removing junk vehicles from our island is a costly venture. The most visible cost is the junk vehicle and scrap metal removal costs from the Landfill, for which the Utility budgets \$400,000 annually.

The underlying cost for collecting and preparing abandoned vehicles for disposal at the Landfill is substantial. Department of Public Safety budgeted \$6,000 for FY2020 for the impounding, title search, and towing of abandoned vehicles to Public Works. Public Works absorbs the cost to remove all garbage, wheels, and liquids from the vehicles before the vehicles are taken to the Landfill. It has been estimated that it costs the City up to \$1,500 per abandoned vehicle to prepare it for disposal.

The projected revenue from the vehicle registration tax for FY2020 is \$60,000. The Landfill Budget receives \$50,000 and the General Fund receives \$10,000 of these monies. The revenue received from the Vehicle Registration Tax only pays for 15% of the cost to remove vehicles from the island.

LEGAL: As needed.

STAFF RECOMMENDATION: Staff recommends no changes concerning the Vehicle Tax Ordinance UCO 14.04.021, or the Solid Waste Fee Schedule for vehicle disposal.

PROPOSED MOTION: N/A

CITY MANAGER COMMENTS: I support staff's recommendation.

Re: Ordinance 2020-11 amending the fee schedule specifying the fees and charges for services, labor and equipment provided by the City

SUMMARY: Each year City Council reviews the fee schedule specifying the fees and charges for services, labor and equipment provided by the City. Attached for your review are the proposed changes to take effect on July 1, 2020 for FY21.

PREVIOUS COUNCIL ACTION: In 1999 Council adopted the fee schedule and each subsequent year has reviewed and approved proposed changes.

BACKGROUND: In the past, the City maintained several different fee schedules and at times, fees were established without Council approval. In an attempt to bring consistency to the schedule, all fees were incorporated into a single fee schedule for Council adoption. Because it was previously connected to AIEDA requirements, the Ports tariff is not included in the fee schedule. During the recodification of the Unalaska Code of Ordinances, all references to fees were removed from the code and included in the fee schedule, which was then adopted by non-code ordinance.

DISCUSSION: A new section was added for the Department of Fire and Emergency Medical Services, and the related fees were transferred to the new section from Public Safety.

Four departments are proposing changes to their fee schedule, as follows:

1. **Fire and Emergency Medical Services:** FEMS would like to adjust our fee scale for ambulance services. See page 3. Currently, Unalaska's ambulance fees are the lowest in the state. We believe it is in the best interest of the City to have two fee scales, one for local residents and a higher rate for non-residents, following the practice of many departments in the state. The lower proposed rate for our residents is the lowest rate in the state; and the proposed fee scale for non-residents is at the median of rates charged statewide.
2. **Ports and Harbors:** Ports is proposing four minor housekeeping changes to include:
 - a. Page 16 - Section IV, D (3) changing the wharfage rate at CEM from \$4.85 to \$4.93. This rate was overlooked in the last adjustment. Add the word "crane" to #4.
 - b. Page 18 - Section VI to eliminate Spit Dock Crane fee it is already addressed under letter O section VI.

- c. Page 20 - Section VI Letter M, define minimum wharfage for UMC and LCD at \$252.42; Section O, clarify the dock-mounted crane rate \$25.42 per hour
- 3. Public Works / Public Utilities: Page 24 - added two new pieces of equipment to the fleet.
- 4. Public Utilities:

a. Wastewater Utility

- i. Pages 32 and 33 - Delete outdated rates
- ii. Page 34 - Added fees for the Wastewater Laboratory. Occasionally local businesses request that the Wastewater Lab run samples for them when the local labs are out of service. To remain sustainable, the cost of running these samples must be captured. The fees charged are higher than the local commercial lab fees to dispel any idea that the Wastewater Lab is in competition with local labs.

b. Solid Waste Utility

- i. Page 35 - Delete outdated rates
- ii. Page 36 - Add fees for Mud Gear at page 36 to the Tipping Fee/Minimum charge table. Mud gear is described as floats or tires of any size that are cabled or chained together and used for a various reasons on fishing boats. Extra time and effort are required to handle Mud Gear and are almost impossible to dispose of. The charge of \$365 per ton will cover the cost of handling and disposal.
- iii. Page 36 - Delete redundant "Pick-Up truck & SUV's up to 1 Ton Rating"
- iv. Page 36 - Delete the \$227.59 charge for "Net Compact Fee (per ton)" and added a charge of \$300 per ton. Nets are getting difficult to dispose of. According to our last proposal, the handling and disposing of nets and line off island will cost approximately \$300 per ton.
- v. Page 37 - Changed the first paragraph in this section to read as follows: "Customers responsible for any mixed load arriving at the City's solid waste disposal facility that includes prohibited items or materials requiring separation and sorting shall be charged \$750 per container. This charge will be in addition to the landfill tipping fee in Schedule B above." The Landfill receives several containers per week that contain hazardous material, toxic waste and material that will harm the Baler. Once these materials are found in the containers, the whole container must be sorted. The charge of \$750 per container will cover the cost of Landfill Personnel sorting the container and the disposal of the hazardous waste and material. This \$750 charge coincides with fees charged at landfills around the state.
- vi. Page 37 - Change the second paragraph to: "Materials requiring separation" include: major items and appliances; pallets and large wood

items; nets and line; fish waste; fish meal; preservative;; tires; wire rope/cables; junk vehicles; and scrap metal. "Prohibited materials" include: creosote or creosote treated items; petroleum products; corrosive materials; toxic materials; liquids; off-island waste; PCB's; and Asbestos and any material considered a hazardous waste." The language "galley/restaurant" has been removed from this paragraph, which is not considered a prohibited material. Our ADEC Landfill Permit prohibits the City from accepting Hazardous Waste. The added language "and any material considered a hazardous waste" has been added to the end of the paragraph. This language was added for clarification and better defines our intent to keep all hazardous waste out of the Landfill.

- vii. Page 38 - Deleted the last two sentences of this paragraph and added "All tanks and bottles (propane, fuel, oil, Freon, oxygen etc.) must be cut in half." This new language describes the intent of rule in a clearer sentence. In addition, metal recycling businesses will not accept barges of metal if they see tanks of any nature that are not cut in half.

ALTERNATIVES: Council may choose to adopt the fee schedule as proposed; amend the proposed changes; or to make no changes to the existing fee schedule.

FINANCIAL IMPLICATIONS: Staff does not anticipate significant financial impact.

LEGAL: None.

STAFF RECOMMENDATION: Staff recommends adoption of Ordinance 2020-11.

PROPOSED MOTION: I move to schedule Ordinance 2020-11 for public hearing and second reading on June 23, 2020.

CITY MANAGER COMMENTS: I support Staff's recommendation.
