MEMORANDUM TO COUNCIL

To: Mayor and City Council Members
From: Tom Cohenour, Director, Department of Public Works
Through: Erin Reinders, City Manager
Date: February 9, 2021
Re: Ordinance 2021-04: A Budget Amendment Request for the DPS Repeater Site and Radio Upgrades Project (PS18A)

SUMMARY: Staff is requesting a budget amendment of \$500,000, appropriated from the General Fund, to allow the purchase of portable and mobile radios and accessories under the scope of the DPS Repeater Site and Radio Upgrades Project.

PREVIOUS COUNCIL ACTION: This project was initially funded through the FY18 CMMP and Budget Ordinance 2017-07, adopted May 23, 2017, transferring \$110,000 from the General Fund to create the project. Additional funding of \$200,000 was appropriated from the General Fund via the FY19 CMMP and Budget Ordinance 2018-04, adopted May 22, 2018, and via FY20 CMMP and Budget Ordinance 2019-07, adopted May 28, 2019, moving \$690,000 from the General Fund to bring the Project's total budget to \$1,000,000.

BACKGROUND: The project's scope covered replacing components at the Repeater Site and DPS Facility to include repeaters, transmitters, antenna systems, and console software operating systems to ensure the City's Public Safety radio system becomes compliant with Federal Communications Commission (FCC) regulations. It also upgrades the current 911 system to an "enhanced 911" with expansion options for local mapping and Computer Aided Dispatch for incident and event records. In order to transform our signal from analog to digital as required by the FCC, the portable and mobile components must become compliant.

DISCUSSION: This project's scope currently does not include the procurement of portable and mobile radios and associated equipment nor does the budget allow for it. However, the purchases are now necessary. The proposed budget revision of \$500,000 will continue federally mandated efforts to upgrade our signal from outdated analog to the latest technology digital along every point in the communications links between the Control Room, Repeater Site, and our patrol vehicles and response equipment.

ALTERNATIVES: Again, in order to transform our signal from analog to digital as required by the Federal Communications Commission, the portable and mobile components must become compliant. The only true alternative to funding this Budget Amendment request is to push out the timeline to fulfil the City's obligation to do so. Since this project is already underway, it is prudent to upgrade the portable and mobile radios at this time as a cost saving measure.

FINANCIAL IMPLICATIONS: To date, \$383,261 has been expended to purchase headsets and a portable transformer, and an additional \$38,482 is encumbered for workstations for the Dispatch office as well as additional headsets and associated accessories. There is \$578,257 remaining in the Project’s budget to cover present scope of work. The proposed revised budget is set forth below will cover the increased scope of work.

		\$ 1,000,000	\$ 500,000	\$ 1,500,000

LEGAL: Upgrading our signal to digital is a Federal requirement.

STAFF RECOMMENDATION: Staff recommends fully funding this Budget Amendment request so that our Public Safety infrastructure is compliant with Federal requirements and ensures the safety of the citizens of the City of Unalaska.

PROPOSED MOTION: I move approve Ordinance 2021-04.

CITY MANAGER COMMENTS: I support staff’s recommendation. Given the relationship to emergency response and preparedness, we initially hoped to use CARES Act funding for this purchase. However, we later determined that such a purchase was no longer eligible when additional Treasury Guidance was rolled out. The need still remains.
